

# GENEVIEVE CYR

## FRONTEND DEVELOPER

### PROFESSIONAL SUMMARY

Dedicated frontend developer with a passion for cutting-edge technologies and building better software. Experienced in writing scalable, maintainable applications using TDD, MERN architecture, and React/Angular frameworks, with a positive and enthusiastic approach to troubleshooting and collaboration. Able to leverage creative and technical skills acquired from a background as an audio engineer to deliver practical, leading-edge solutions and optimize the user experience.

### WORK EXPERIENCE

#### FRONTEND DEVELOPER

BitAccess Inc. | Feb 2022 - Oct 2022

- Strongest contributor to re-write/re-design of company's most profitable, core product using React.js and TailwindCSS
- Optimized UI using custom styled-components (Storybook)
- Wrote scalable, maintainable, performant code resulting in significant improvement in response time, as well as seamless and intuitive user-flow, and UX
- Constant positive approach to collaboration and problem-solving. Liaising with backend team to ensure compatibility and technical implementation

#### SOUND RECORDIST

MELS Studios & Postproduction | Dec 2016 - Dec 2021

- Sound recordist/editor for film and television post production, achieving frame-lock synchronization through on-the-fly editing and great attention to detail
- Established workflow and technical processes to respect deadlines and improve quality of end product
- Maximized studio time for employer, reducing costs and assuring industry standards

### EDUCATION

#### CAREER FOUNDRY, FULL-STACK IMMERSION

Full-Stack Web Development Program | Sept 2021

Intensive project-based training program with a focus on server-side programming, client-side development (JavaScript, React.js, Angular), and responsive web-design

#### UNIVERSITY OF WESTMINSTER, MASTERS OF ARTS

MA Audio Production | Dec 2012

#### QUEEN'S UNIVERSITY, BACHELOR OF ARTS (HONORS)

BAH Electroacoustic Studies | May 2011

### PROJECTS

#### BILLFOLD - PROGRESSIVE WEB APP

[GITHUB](#)

Expense Tracking App | Sept 2021 - Present

- Endeavoured development on personal project (full-stack PWA), designed to allow users to track their expenses on a monthly basis
- Implemented data visualization using PrimeNG Charts and FullCalendar libraries to reflect user data complementing the intuitive design layout
- Achieved interactive and responsive UI using Angular and MaterialUI

#### MYFLIX - MERN-STACK WEB APP

[GITHUB](#)

IMDB Movies App | July 2021-August 2021

- Developed server-side code (RESTful API & Database) in order to provide users with IMDB-like functionality
- Implemented client-side using React & Redux in order to manage and store user interaction data
- Upgraded app design to ensure responsiveness over multiple platforms using Bootstrap

### TECHNOLOGIES

React.js   JavaScript   Angular  
TailwindCSS   NPM   TypeScript  
Redux   Storybook   MongoDB  
MySQL   Node.js   GraphQL  
GitHub   Postman   HTML5  
Jest   TestCafe   Postgre

### SKILLS

- JavaScript Libraries & Frameworks
- Back-End & Database Skills
- Responsive Web Design
- Styled-components
- Mobile Application Development
- Troubleshooting & Testing
- Teamwork & Collaboration
- Time-Management & Prioritization
