GENEVIEVE CYR
WEB DEVELOPER

PROFESSIONAL SUMMARY

Dedicated full-stack developer with demonstrable prowess in methodical database programming and user-centric, responsive designs. Background in audio engineering developed a passion for software development and the integration of cutting-edge technologies into daily work. Excellent troubleshooting and time-management skills with strong proficiency in MEAN-stack server-side programming and React/Angular frameworks.

PROJECTS

BILLFOLD - PROGRESSIVE WEB APP   GITHUB

Expense Tracking App | Sept 2021 - Present
- Endeavoured development on personal project (full-stack PWA), designed to allow users to track their expenses on a monthly basis
- Implemented fully-operational back-end using MEAN stack, and accompanying logic tested with Postman
- Achieved interactive, intuitive and responsive front-end using Angular and MatUI

MYFLIX - MERN-STACK WEB APP   GITHUB

IMDB Movies App | July 2021-August 2021
- Developed server-side code (RESTful API & Database) in order to provide users with IMDB-like functionality
- Implemented client-side using React & Redux in order to manage and store user interaction data
- Upgraded app design to ensure responsiveness over multiple platforms using Bootstrap

EDUCATION

CAREER FOUNDRY, FULL-STACK IMMERSION
Full-Stack Web Development Program | Sept 2021
Intensive project-based training program with a focus on server-side programming, client-side development (JavaScript, React, Angular), and responsive web-design

UNIVERSITY OF WESTMINSTER, MASTERS OF ARTS
MA Audio Production | Dec 2012

QUEEN'S UNIVERSITY, BACHELOR OF ARTS (HONORS)
BAH Electroacoustic Studies | May 2011

WORK EXPERIENCE

SOUND RECORDIST

MELS Studios & Postproduction | Dec 2016 - Present
- Sound recordist/editor for film and television post production, achieving frame-lock synchronization through on-the-fly editing and great attention to detail
- Established workflow and technical processes to respect deadlines and improve quality of end product
- Maximized studio time for employer, reducing costs and ensuring industry standards

PROFESSOR

Recording Arts Canada | March 2012 - Dec 2016
- Spearheaded re-design of Sound Design and Post-Production courses to improve student participation and overall performance & attendance
- Created engaging course work and portfolio projects to cultivate job-ready skills
- Increased significantly student employment rate post-graduation
- Communicated successfully and creatively with both students and staff

TECHNOLOGIES

HTML5   JavaScript   CSS3

React   MongoDB   Postgre

Node.js   Angular   GitHub

Postman   Redux   Bootstrap

MaterialUI   NPM

SKILLS

- JavaScript Libraries & Frameworks
- Back-End & Database Skills
- Responsive Web Design
- Web & Application Servers
- Mobile Application Development
- Troubleshooting & Testing
- Teamwork & Collaboration
- Time-Management & Prioritization
